

Distrupol Colour Medical

Distrupol is proud to offer first-class compounding solutions for medical applications, manufactured in a purpose-built facility with cleanroom status.

When quality and sterility are key, Distrupol Colour Medical delivers premium compounding services with optimal results for medical polymer manufacturers.

Distrupol Colour Medical responds to the high demands of the medical industry with full circle compounding services.

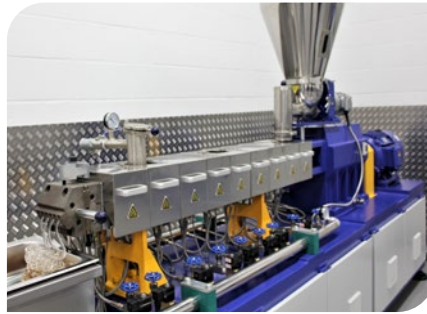

We know that quality, hygiene and consistency are paramount when it comes to the manufacturing of medical grade products, and with our expertise and experience, we deliver superior solutions to manufacturers across Europe.

DISTRUPOLSM
COLOUR

Full Medical Compliance

All medical products are processed and tested according to ISO Class 9 cleanroom regulations and under ISO 13485 quality management systems for medical devices.

All ingredients used on site in the production of medical products meet the requirements of ISO 10993-1:2018 and USP Class VI.

Purpose-Built Facility

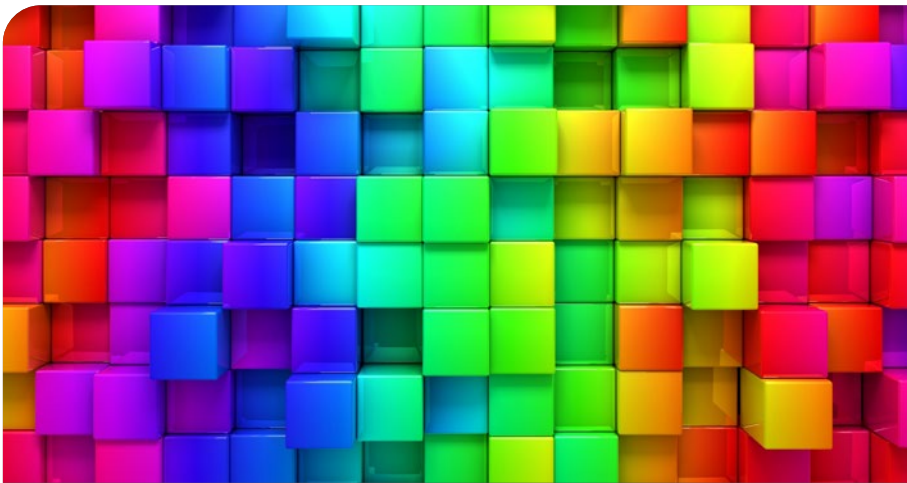

Distrupol Colour Medical operates from a purpose-built facility which follows strict manufacturing processes that comply with the stringent requirements of the medical industry.

All products are produced in accordance with WHO and FDA Good Manufacturing Practices in the UK's first 'cleanroom' plastic extrusion facility.

Change Control

In accordance with the stringent requirements of the medical industry, Distrupol Colour Medical is able to facilitate full regulatory support documentation and change control for up to 3 years to ensure consistent quality for every customer.

Full laboratory testing is also available to cover a comprehensive range of microbiological and chemical testing.

Welcome to our world of colour!

Distrupol Colour can produce colour compounds from an extensive range of thermoplastic materials.

Whatever colour compound enquiry, **Distrupol Colour has a solution.**

Distrupol are proud to be an Operation Clean Sweep® partner.
