

DISTRUPOLSM

ENVIRONMENTAL POLICY

Distrupol recognises that clear, positive and visible leadership is core to the effective management of the environment and is essential in maintaining a positive environmental culture throughout the organisation. As such, Distrupol is committed to:

Legal and Other Requirements

Complying with all relevant regulations and requirements and operating in accordance with both government and industry codes of practice and guidance appropriate to our activities.

Management of Risk

Assessing and managing the risks associated with our activities to ensure a high level of protection for our employees, contractors, customers, the public and the environment.

Policies and Documentation

Having in place documented policies and management systems which enable us to control our environmental risks and improve our environmental performance.

Provision of Information

Providing relevant environmental information to contractors, customers, statutory bodies and the public.

Training

Providing all employees with information, instruction and training aimed at ensuring that they understand their responsibilities and the contribution they can make towards the achievement of the environmental objectives.

Prevention of Pollution

Preventing pollution of air, land and water through careful planning of operations, provision of suitable facilities and responsible waste management.

Emergency Response

Establishing and maintaining appropriate emergency response systems.

Product Stewardship

Working and communicating with our partners along the supply chain to manage existing and new products and meet the increasing demands for the environmental protection and sustainability.

Continual Improvement

Achieving continual improvement in the environmental performance.

Objectives and Targets

Establishing and reviewing the environmental objectives and targets.

R. J. Orme, Joint Managing Director
